\* Per month pricing is only available for automatic credit card payment or electronic funds transfers.

\*\* For annual prepaid contracts, if additional users or Cabinet Space are added, the pricing will be at the annual rate and prorated for the remainder of the contract.

\*\*\*Does not include scheduled downtime

User is defined as a User ID to the system with read-write access. The client will be issued the amount of User ID's they have purchased. They may add and delete Users as needed but will not be able to add additional Users if they do not have enough User ID's.

User – Read Only is defined as a User ID – with Read Only access to the system. The client will be issued the amount of User ID's – Read Only users they have purchased. They may add and delete Users – Read Only as needed but will not be able to add additional Users – Read Only if they do not have enough User ID's.

Cabinet Space consists of all the storage space used by the client data that is uploaded into the application. A report will be delivered each month to our clients that will show the amount of Cabinet Space they are using up. Cabinet Space is charged in 1GB increments, over the allotted space.
